

## FIRE BEATER

CARBON STEEL/BAMBOO, AS PER IS:8096

The Fire Beater is a first aid fire fighting tool, and can be used to fight small class A fires such as those in grass, hay, paper, etc. The beater head is used to smother small flames and can extinguish fires in the initial stages. A long handle helps to tackle fires from a safe distance.

**Brief Description :** AAAG Fire Beater, as per IS:8096, made of Carbon (Mild) Steel frame and Steel mesh, and having bamboo handle, suitable for fighting small Class A fires.

### 1.0 GENERAL DATA

1.1	Make	AAAG
